

Arched Ice Bridge Challenge (For 2 to 4 players)

This is a cooperative game where more than one set of hands help!
Can you work together to make a huge arched bridge of ice cake
between two penguins and stand it upright?

Here are some tips:

1) Build the arch with the ice cakes slightly
staggered from one to the next, as shown.

2) Build the arch on a carpeted surface as shown.
This will help keep two penguins from sliding around
once you attempt to stand them up.

3) Work together to carefully stand up the arch and
penguins without any pieces falling. Everyone wins
when you create your ice Arc de Triomphe!

Penguin Stacking Ice Game Improves:

- 1. hand-eye coordination
- 2. fine motor skills
- 3. cooperation skills and patience

WARNING:
CHOKING HAZARD—Small parts.
Not for children under 3 years.

Age: 4+
Players: 1-4

For 1-4 Players, Ages 4+

Plastic penguin x 2, Ice cakes x 20, Sticker x 1, Instruction x 1
There are two penguins from remote and freezing Antarctic Continent. One day they are playing ice stacking game. Who stack the more ice cakes, who win the game.

Penguin Stacking Ice (For 2-4 Players)

Place one penguin in the center of the play area.
Divide the ice cakes among all the players evenly.
If you have any extra ice cake, put them aside.
Take turns placing a single ice cake on top of one penguin.
If any pieces fall during your turn, you must take them and end your turn.
Place all of your ice cakes on the penguin first and win!

Tumbling Ice Cake (For 1 player a time)

Place one penguin in the centre of the play area. To warm up, stack 2 ice cakes on top of one penguin and then place another penguin upside-down on top.

As shown in the pictures above, grab each penguin and carefully turn the entire stack over without losing any ice cakes! Now try to add another ice cake and do it again. How many can you do?
